

**Project
PAYBAC®**
Partners Assisting Youth, Business And Community

PRESS

Businesses partner with Millard schools

Since the inception of the Project PAYBAC program in 1988, partnerships with the business community have grown and flourished. Today, 250 businesses work with Millard schools to provide diverse learning opportunities.

Each school and its business partners plan meaningful activities. Banks have taught students how to balance a checkbook and helped them start savings accounts. School bands and musical groups have entertained at grand openings and at retirement homes. Business leaders have conducted mock interviews and helped students develop resumes.

The activities are as diverse as the businesses!

The Millard School District would like to thank the following PAYBAC Partners for their support during the last school year:

21st Century Financial Group, Inc.
