This policy shall apply to a disability which may arise from a perpetually infectious disease; provided, however, that due consideration must be given to the specific facts of each case and the possibility of harm to others.
- II. In all instances where an employee has a perpetually infectious disease, the employee's condition and identity will remain confidential unless the employee has consented to the release of such information.
- III. The provisions of Rule 4510.1 shall apply to eligible employees, as defined therein, with a perpetually infectious disease. In addition to the conditions set forth therein for use of sick leave days, such may also be used by persons with a perpetually infectious disease, if warranted to avoid opportunistic infections.
- IV. "Perpetually infectious diseases" are those diseases which are carried throughout life by the infected person and have the potential to be transmitted to other individuals and include but are not limited to: AIDS, ARC, CMV (as defined below), Tuberculosis, Hepatitis, and Herpes.
 - A. Acquired Immune Deficiency Syndrome (AIDS) - infected with human T - lymphotropic virus type III/lymphadenopathy associated virus (HTLV- III/LAV). Persons infected with this virus are unable to fight off a variety of infections and rare illnesses. Symptoms include repeated infections that result in persistent diarrhea, swollen glands, fatigue, fevers or persistent cough which the body is unable to fight off, eventually resulting in a life-threatening illness such as pneumonia or uncommon skin cancer. The disease is transmitted through blood to blood contact or intimate sexual contact.
 - B. AIDS Related Complex (ARC) - a medical condition in which the body has repeated infections and is unable to protect itself from certain tumors and/or infections. Symptoms similar to AIDS are present but there has been no life-threatening illness. This condition may progress to AIDS although the symptoms may be the result of other diseases. The disease is transmitted through blood to blood contact or intimate sexual contact.
 - C. Cytomegalovirus (CMV) - common virus which is harmless to most persons. At greatest risk are fetuses and persons receiving medications which suppress their natural immunity to infections. It is transmitted by close person to person contact, body secretions and blood.
- V. The following procedures shall be followed with respect to an employee who is suspected of having or has a perpetually infectious disease.
 - A. Any employee who has or suspects that he/she has a perpetually infectious disease shall advise the Superintendent or Superintendent's designee. Such information shall be treated as confidential and will not be divulged to other persons or sources except to the extent necessary to take precautions to protect others from the disease.
 - B. The Superintendent or Superintendent's designee may require an employee to provide current medical information or to submit to a medical evaluation if he has a reasonable suspicion that an employee has a perpetually infectious disease.
 - C. If an employee has been diagnosed with a perpetually infectious disease, determination of whether the employee should be permitted to continue to be employed in his/her capacity will be made by a review of each individual case by a team (hereinafter "Team") established by the Superintendent or Superintendent's designee. The Team shall meet within seven (7) working days of the diagnosis and make a determination within ten (10) working days of the Team meeting.
 - D. The Team will consider the following factors in arriving at its recommendation as to the propriety of the employee's continued employment in his/her current capacity:
 1. The employee's work place and interaction with other persons;

2. The physical condition of the employee;
 3. Whether the employee's condition substantially interferes with his/her ability to perform essential job functions with reasonable accommodation; and
 4. Whether the employee poses a substantial possibility of harm to others.
- E. Upon diagnosis and prior to a decision by the Team, the Superintendent may remove the employee from the work place if he determines that the employee's presence in the work place poses a health threat.
- F. Based upon the information available to the Team, it may recommend:
1. Continued employment in his/her current capacity;
 2. Reassignment;
 3. Leave of absence;
 4. Reduction in amount of employment;
 5. Termination;
 6. Such other reasonable accommodations as may permit the employee to perform essential job functions;
or
 7. Any combination of the above.
- G. Based upon the Team's recommendation, the Superintendent or the Superintendent's designee shall take appropriate action. If the employee's employment status will be affected appropriate due process procedures as required by law shall be followed.

Uniform Service Leave (Military Leave of Absence)

4510.14

- I. Leave of absence will be granted to employees of the District who are absent from employment by reason of service in the uniformed services as provided by law.
- II. **Eligibility.** The following employees are eligible for service leave:
 - A. Employees who are members of the National Guard, Army Reserve, Naval Reserve, Marine Corps Reserve, Air Force Reserve, and Coast Guard Reserve are entitled to a leave of absence, without loss of pay, on all days during which they are employed under the orders or authorization of competent authority in the active service of the State of Nebraska or of the United States. Employees who normally work or are normally scheduled to work one hundred fifty-nine (159) hours or more in three consecutive weeks and scheduled to work twenty-four-hour shifts shall receive a military leave of absence of one hundred sixty-eight (168) hours (21 days) each calendar year. Employees who normally work or are normally scheduled to work one hundred twenty (120) hours or more but less than one hundred fifty-nine (159) hours in three (3) consecutive weeks shall receive a military leave of absence of one hundred twenty (120) hours (15 days) each calendar year. Members who normally work or are normally scheduled to work less than one hundred twenty (120) hours in three (3) consecutive weeks shall receive a military leave of absence each calendar year equal to the number of hours they normally work or normally would be scheduled to work whichever is greater, in three consecutive weeks. Such military leave of absence may be taken in hourly increments and shall be in addition to the regular annual leave of the persons named in this Rule.
 - B. If the Governor declares that a state of emergency exists, any persons named above who are ordered to active service of the state shall receive a state of emergency leave of absence until such person is released from active service by competent authority. During a state of emergency leave of absence, the affected employee shall receive his/her normal salary or compensation minus the state active duty base pay he or she receives in active service of State.
- III. **Return to Employment.** Upon an honorable discharge from active service, such employee shall be entitled to a return to the same or comparable position as provided by law; provided, however, that the employee is still qualified to perform the duties of the employee's former position, and the employee makes a timely application to return to employment as follows:

If, due to no fault of the employee, timely reporting back to work would be impossible or unreasonable, the employee must report back to work as soon as possible.
 - B. **Fitness Exam.** The time limit for reporting back to work for a person who is absent from work in order to take a fitness-for-service examination is the same as the one above for persons who are absent for 1 to 30 days.
 - C. **Service of 31 to 180 days.** In the case of a person whose period of service in the uniformed services was for more than 30 days but less than 181 days, an application for re-employment must be submitted to the District no later than 14 days after completion of the person's service. If submission of a timely application is impossible or unreasonable through no fault of the person, the application must be submitted the next first full calendar day when submission of such application becomes possible.
 - D. **Service of 181 days or more.** In the case of a person whose period of service in the uniformed services was for more than 180 days, an application for re-employment must be submitted to the District no later than 90 days after the completion of the person's service.
 - E. If such employee is not qualified to perform the duties of such position upon the employee's return by reason of a disability sustained during the training or service but is qualified to perform the duties of any other positions, the employee shall be restored to such other positions, the duties of which the employee is

qualified to perform, as will provide the employee with the same seniority, status, and pay, or the nearest approximation thereof consistent with the circumstances of the employee's case. Such person shall not be discharged without justifiable cause within one (1) year after reinstatement.

- F. Any such employee submitting an application for re-employment shall, upon request, provide the District documentation to establish that the person's application is timely and that the person is entitled to the benefits under this Rule.

IV. **Preservation of Benefits.** Absence for any of the reasons stated above shall not affect the employee's right to receive normal vacation, sick leave, bonus, advancement and other advantages of the employee's employment normally to be anticipated in the employee's particular position.

V. **Re-Employment.** A person whose military service lasted 1 to 90 days shall be promptly re-employed:

- A. In the job the person would have held had the person remained continuously employed, so long as the person is qualified for the job or can become qualified after reasonable efforts by the employer to qualify their person; or in the position of employment in which the person was employed on the date of the commencement of the service in the uniformed services, only if the person is not qualified to perform the duties of the position the person would have held after reasonable efforts by the employer to qualify the person.
- B. If the employee cannot become qualified for either position described above, even after reasonable employer efforts, the person is to be re-employed in a position that is the nearest approximation to the positions described above which the person is able to perform, with full seniority.
- C. A person whose military service lasted 91 or more days shall be promptly re-employed in the job the person would have held had the person remained continuously employed, or a position of like seniority status and pay, so long as the person is qualified for the job or can become qualified after reasonable efforts by the employer to qualify the person; or, in the position of employment in which the person was employed on the date of the commencement of the service in the uniformed services, or a position of like seniority, status, and pay the duties of which the person is qualified to perform, only if the person is not qualified to perform the duties of the position the person would have held after reasonable efforts by the employer to qualify the person. If the employee cannot become qualified for either position, then in any other position of lesser status and pay, but that most nearly approximates the above positions (in that order) that the employee is qualified to perform with full seniority.

RE: MPS Sandoz Elementary School Renovations
Schemmer Project No. 08346.001

Dear Mr. Meisgeier,

On November 3, 2022, bids were received at the MPS Support Services Center. Per the attached bid tabulation sheet, four (4) bids were received. Schemmer's most recent cost estimate was \$864,351. The project budget allocated is \$910,775. The low bidder was Genesis Contracting Group with a base bid of \$921,000.

Due to continued construction inflation and this being the second time this project has gone out to bid, Schemmer recommends a contract be awarded to Genesis Contracting group in the amount of \$921,000 for the MPS Sandoz Elementary School Renovations.

Upon your approval, we can proceed with preparation of contracts. Please let me know if you should have any questions or concerns.

Sincerely,

Project #22394: Millard North Lighting Upgrade – Phase 3
RE: Bid Proposals dated December 21, 2021

Mr. Brennan:

Bids were received for the Millard North High School Lighting Upgrade Phase 3 at MPS Support Services Center on November 8th, 2022 at 2:00 p.m. Per the attached bid tab, three bids were received. The low base bid was submitted by Superior Lighting in the amount of \$418,600 (four hundred eighteen thousand six hundred dollars). Superior Lighting has successfully completed similar projects led by MEI including the lighting replacement at Millard Central Middle School.

The total bid amount of \$418,600 is lower than the original project estimate of \$550,000.

We recommend awarding base bid to Super Lighting in the amount of \$418,600 (four hundred eighteen thousand six hundred dollars)

Superior Lighting indicated on their Bid Proposal they would finish by August 4th, 2022. We have confirmed with them this is intended to be final completion which is per the specifications.

Please advise if you require any additional information.

Sincerely,

Andrew Lang, PE

Strand One: Communication

Students communicate effectively in a variety of situations for multiple purposes.

Key point:

- Students should use language for a meaningful, communicative purpose.

Communication is the most elemental purpose of language learning. As simple as a child's first word or as complex as a discourse on the impacts of science and technology, communication is invariably tied to need, situation, purpose, and mode. These concepts are represented in later strands. Strand One focuses on the dexterity of manipulating the language and language structures in various modes of communication. The Modes of Communication are Interpersonal, Interpretive, and Presentational. The Interpersonal Mode represents negotiation of information among two or more parties. The Interpretive Mode requires an interpretation of meaning. The Presentational Mode refers to the creation of a message that others will have to interpret. All modes of communication might be conducted in written or oral format.

Some teachers use interpersonal communication intermittently, some use it frequently, and some use it as the basis of the entire educational platform. Whichever approach a teacher uses will determine the ultimate level of proficiency that learners attain in the interpersonal mode.”</p>

Strand Two: Culture

Students work with the language in a way that shows familiarity with and value for the cultures of the speakers of the language.

Key points:

- The culture of the target language is fundamental to all language instruction and can be taught through implicit instruction as well as explicit instruction.
- Elements of culture can, and should be, taught in the target language whenever appropriate and feasible.
- Learners must have insight into cultural perspectives, and the ability to behave appropriately in a variety of cultural contexts, in order to be effective communicators.

Interculturality is the ability to understand the underlying histories, values, attitudes, beliefs, practices, and views that affect communication and understanding among people. It is the essence of 'it's not what was said; but how it was said'. Strand Two illustrates that true language proficiency requires an awareness of and familiarity with the connotations, social cues, and perceptions associated with language in order to communicate the desired message. Intercultural competence often results in empathy, closer introspection, greater self-awareness, and active listening.

ACL Ancient and Classical Languages	WL 2.1 Although many common products have been lost to historical record, it may be possible to investigate historical artifacts. Possible products include: clothing, jewelry, dwellings, sports, literature, artwork, tools, and pottery. Products may be discoverable through ancient artwork, ruins, or other artefacts. WL S 2.2 Daily life, idioms, and regional variations in the language may not have been recorded or may not be available to allow students to interact with these elements today. ACL educators are encouraged to present and discuss what unique expressions, idioms, and cultural language points are available.		

Strand Three: Connections

Students use the language studied to reinforce and expand their knowledge, connecting language and cultural experiences to all content areas.

Key Points:

- Scaffolding and structure support the use of appropriately chosen authentic materials.
- Using authentic materials contextualizes the language, expands lexicon through production, and validates the learning of the language and the learning of the content.

Languages bring the power to communicate a message to an exponentially larger audience. Languages are a mechanism that support access to resources, opportunities, and careers. In making connections to other content areas, students will expand vocabulary, contextualize the language, and begin to seek out a pathway to personalized language learning. Strand One and Strand Two are about the finesse and use of language. Strand Three and Strand Four are about the purpose of language study: to make connections, and to apply the skills students have learned.

Strand Four: Communities

Students can apply their world language skills to personal, community, and career experiences.

Key Points:

- Providing a connection to world languages outside of the school setting is critical to student motivation and engagement.
- Community involvement builds empathy, respect for diversity, and self-awareness.
- When there is an awareness of the world, it is far easier to find one's place within it.

Our global world and impact continue to expand. Language skills bring global connections closer to home, allowing students to connect across the world or at the market on the corner. Strand Four emphasizes participation in multilingual communities around us. With another language, students can be aware of the world and their role within it, have an understanding of community needs and concerns, and be able to take responsibility for their development as a member of their community.

Digital tools advance the studies of authentic resources and studies connect the ancient and modern worlds.

Strand Five: Cognition

Students explain what they know and are able to monitor their own learning journey with support from their teachers.

Key Points:

- Learning is a partnership between the student and the teacher.
- Learning to learn establishes processes and connections that more efficiently route information to its destination.
- Using the language of study to define expectations, discuss language acquisition, and to set learning goals increases the ability to place language in context.
- Taking an active role in planning for language study propels students to higher levels of proficiency.

First language learning and acquisition is a process that begins in infancy and lasts a lifetime. Second language learning and acquisition is both similar and more dynamic than first language learning. Language learning is the natural absorption of language that is firmly rooted in situational and contextual surroundings. Infants come to associate “mama”, “papa”, and “bottle” with things that they need. Language acquisition is a formalized study of language and its functions. It will be years before those same children understand “nouns” and can manipulate them in sentences. Strand Five serves to help educators and students remember that language learning and acquisition is a process. By learning the cognition of language study, students will be better able to engage in and take responsibility for their own learning.

English Learner Program Report 2021-2022

Millard Public Schools

The English Learner (EL) Program has continued to grow and establish itself as an integral part of the Millard Public Schools. The purpose of the EL Program is to provide English language instruction to limited and non-English speaking students who enter our community and require these services. It is the goal of the program to assist students in becoming full participants in the general education program. Research shows that having a program for English development is more beneficial than not having one (Saunders and Goldenberg, 2010). This is to say that students who are acquiring English as an additional language are more likely to be successful in school if they receive direct English language instruction.

Program Demographics

The demographic counts included within this report were pulled on July 15, 2022 and are based on each student's last enrollment of the 2021-2022 school year.

Enrollment of EL Eligible students in the K-12 program increased in the 2021-2022 school year. The number of students who are eligible for EL services, but whose parents have chosen to waive services (Eligible, Not Participating), decreased by 42 students from 2020-21 to 2021-22. This could be due to the addition of two new EL sites at Aldrich and Black Elk Elementary Schools.

In 2019-2020, as directed by ESSA, we began monitoring students who have been redesignated as English Fluent for 4 years rather than two.

Special Education

10% of K-12 EL Eligible students are also verified with a disability and receive services through the Special Education Program. This is a decrease from 12% in 2020-21. District-wide, 14% of students are verified for services.

Native Language-

Sixty-nine languages other than English are spoken among the EL student population. The three most highly spoken languages are Spanish, Arabic and Vietnamese. Spanish is the majority native language with 44% of EL students speaking Spanish as their first language. Arabic is spoken by 6% of EL students and Vietnamese, Telegu, and Persian are each spoken by 5% of the Millard EL students.

There are 90 different languages spoken by the families of all Millard students, English learners and non-English learners.

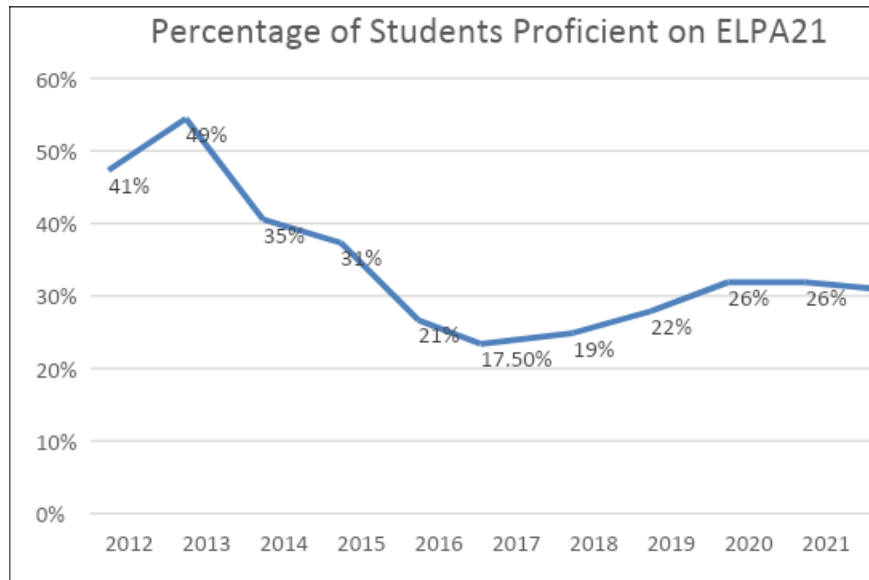

Student Achievement

English Language Proficiency Assessment

As required by Title III and Rule 15, all EL students must participate in the state language proficiency assessment. In Nebraska, the English Language Proficiency Assessment for the 21st Century (ELPA21) has been the test administered to all EL students since the 2015-16 school year. The ELPA21 is a battery of on-line tests used to measure progress in the acquisition of English language proficiency skills among non-native English-speaking students in grades K-12. ELPA21 measures a student's English language proficiency overall, as well as in reading, writing, speaking, and listening. The ELPA21 results for 2020-21 were received in May of 2021 and the results were in place for the 2021-22 school year. The EL students in 2021-22 took the ELPA21 in February and early March and those results will be implemented in 2022-23.

The number of students earning a proficient score on the ELPA21 2021 was 165 or 26.5% of all eligible English learners. In 2020, 152 (26%) students earned a proficient score on the ELPA21. The 2021-22 ELPA21 individual results have been released but district results are not yet available.

Also required by Title III and Rule 15, and as outlined in the program evaluation section of the Limited English Proficiency Plan for State Aid, all EL students participate in the state content assessments (NSCAS). This provides English learners an opportunity to demonstrate their knowledge and skills. Participation yields data that informs educators of progress in learning language and academics and can be used to inform instructional decisions. For students who are very limited in their English proficiency, the emphasis is on the opportunity to participate with less concern as to whether or not the student masters the assessment. The district provides appropriate accommodations to ensure meaningful participation in the assessments.

In addition to NSCAS, Millard EL students, K-8, also participate in MAP growth assessments. The following charts show the percentage of EL eligible (participating and not participating) students who met their growth goals in 202-21 and 2021-22 for Language Arts/Reading and Mathematics. The percentage of students meeting their growth goal increased in 2021-22 in five of the nine grade levels for Reading. For mathematics, the percentage increased in 2021-22 in six of the nine grade levels.

EL Staffing and Professional Development

Rule 15 requires that each school district ensure that all teachers of language instruction educational programs hold an endorsement in English as a Second Language (ESL) or participate annually in professional development.

For the 2021-22 school year, the district grew from 17.5 to 19.5 EL teachers. All EL teachers hold ESL endorsements. In addition to the teachers, there are three Family Bilingual Liaisons and one EL Program Facilitator.

Professional development sessions for EL teachers, classroom teachers, and administrators are listed below. Presentations on a variety of language development topics were made available to principals by the EL staff and many buildings invited them in to present to their teachers.

Parent Outreach and Community Connections

As authorized under Title III, LEP grant funds are used to provide community participation programs, family literacy services and parent outreach or training activities to EL children and their families. During the 2021-2022 school year, district-wide offerings were limited due to the pandemic. However, many schools provided several opportunities for parent involvement at their schools.

Program Planning and Evaluation

As required by Rule 15 and described in the ESSA Consolidation Plan for Title III, the Instructional Approaches, Curriculum, and Assessment Review Procedures for the EL Program have been created and approved by Educational Services. This process, which is similar to the MEP Curriculum Review process, yet unique, includes two phases: Program Planning and Curriculum Planning, Development, and Implementation.

Program Planning

Phase I, *Program Planning*, is carried out in a manner consistent with program evaluation requirements set forth by Nebraska Rule 15. A committee of teacher representatives from K-12 EL, representatives of classroom teachers, principals from an elementary and secondary EL program site, and the EL Coordinator meet annually to carry out a program review. The committee is charged with reviewing EL practices, procedures and documents to ensure compliance

to district and state policy and rule and adoption of best practices. Participants synthesize research and data to identify program strengths and weaknesses and set program goals.

During the 2021-2022 school year the Program Planning Committee began Phase I of the Millard Program Planning process on January 27. EL enrollment data and assessment data were sent to the group in advance for their review. Team members had been asked to respond to some key questions on a Google form, prior to the meeting. During the meeting team members reviewed the feedback, identified common threads and developed lists of strengths, weaknesses, opportunities, and threats.

The members of the 2021-2022 team included:

Kara Hutton	Coordinator Special Programs	MPS
Pam Erixon	EL District Support Specialist	MPS
Laura Fraser	EL Teacher	Montclair
Kim Brown	EL Teacher	Holling Heights
Bastian Derichs	Bilingual Liaison	MPS
Ellie Negrete	EL Teacher	Norris
Becky Reger	EL Teacher	Cather
Paul Grant	EL Teacher	MS High School
Miranda Knipfer	Teacher	Norris
Rana Corey	Bilingual Liaison	MPS
Sierra Becker	EL Teacher	Black Elk
Sheila Bolmeier	MEP for Technology	MPS
Carrie Grove	Teacher	Norris
Michelle Seeba	EL Teacher	Willowdale
Michelle Klug	Principal	Central MS
Joseph Vonderhaar	Principal	Sandoz
Jennifer Scott	EL Teacher	Andersen MS
Guiliani Beccera	Parent	
Alejandro Montes de Oca Gonzalez	Parent	

This team narrowed down the feedback and developed four key strategies:

1. We will increase student engagement and achievement by maximizing support for all types of English Learners.
2. We will build engagement of all EL stakeholders, including parents, former students and community members.
3. We will provide or promote opportunities for professional learning for all categories of Millard staff at all schools.
4. We will implement effective practices to support our Newcomer students and increase their success in content classrooms.

In the fall of 2022, action teams will meet to develop the specific results and action steps that will provide the goals and methods for implementing these strategies. Phase II, the review of curriculum will begin in the spring of 2023.

Conclusion

The English Learner Program in Millard Public Schools is a strong program that demonstrates measured success in supporting students in the development of the English language and in meeting content standards. Teachers and leaders work diligently to ensure the needs of students and parents are met and that EL students have equal opportunities to succeed alongside their native English-speaking peers. Nonetheless, there is room to improve and grow. As a result of the EL Model Review and the program evaluation cycle, we are looking forward to implementing new strategies and continuing to improve the EL program. Likewise, in keeping with the ESSA Consolidation Grant plan, which is submitted to the Nebraska Department of Education, the evaluation process will recommence in 2022-2023 to evaluate our progress and to determine the next steps in meeting our goals or strategies.

State Aid

For the certification of State Aid, every school district is required to designate a maximum Limited English Proficiency Allowance. This designation must be filed with the Department of Education on or before October 15 of each school year along with a Limited English Proficiency Plan.

In the 2021-22 school year, certification for State Aid, the total Limited English Proficiency Allowance was in excess of \$1,700,000.

AGENDA SUMMARY SHEET

Agenda Item: Engagement Results Fall 2022

Meeting Date: November 21, 2022

**Background/
Description:**

Millard Public Schools seeks to have engaged stakeholders to meet its mission. Strategy 1.2 (2018) called for a survey to determine the engagement of all stakeholders (students, families, and staff). Building and district administration use the engagement results to guide school and district improvement plans. For the first year, students in grades 4-12 have completed the MPS created student survey. Results from all stakeholders were strong – well above the midpoint and into the positive range. The chart below provides the overall mean of engagement with a 4 point scale.

Introduction and Purpose

Millard Public Schools seeks to have engaged stakeholders to meet its mission. Strategy 1.2 (2018) called for a survey to determine the engagement of all stakeholders (students, families, staff, and community). In the spring of 2018, an ad hoc committee of teachers and administrators used previous MPS Surveys (Gallup & Effective Schools Battery), Hanover Research Reports, and a few select district examples to create new Millard staff and parent surveys.

In the spring of 2019, an ad hoc committee of teachers and administrators reviewed and slightly revised the parent and staff survey and created a new student survey.

In 2021, Millard began using Qualtrics, a survey management platform designed to allow an organization to gather and analyze stakeholder feedback with the use of a data display dashboard. Parents have an opportunity to complete a survey for each building their children attend.

Two-Dimensional Approach

All questions were aligned to one of six themes (see below) and also aligned to one of the three perspectives or “lens” (also below). This will allow us to look at feedback from the two viewpoints and quantify from both of these dimensions in an efficient manner.

I.) MPS Themes Measured

- *CC - Climate & Culture*
- *I - Instructional*
- *PG - Professional Growth*
- *L - Leadership*
- *BN - Basic Needs*
- *C - Communication*

II.) MPS Lens Measured

- *District*
- *Building*
- *Self*

Participation

The data in the table below identifies how many engagement surveys were completed.

<i>Number of Surveys Completed</i>			
<i>Survey Year</i>	<i>Staff</i>	<i>Parents</i>	<i>Students*</i>
2019	1,690	5,047	14,012
2021	1,580	4,781	11,635
2022	1,479	4,352	11,687

*The student survey included students from grades 3-12 in 2019 and grades 4-12 in 2021.

Note: For 2019 and beyond, surveys **completed** were the only surveys included. This is different from 2018 in which any **unfinished** surveys were a part of the results.

Survey Results

Principals received their results in November 2022. Principals will share building data with a leadership team and School Improvement Team (SIT) to review and create strengths and opportunities using a district [provided template](#). Principals are asked to discuss their results and communication plan with their supervisor. In addition to each building utilizing this information with their SIT, those buildings going through their site plan rewrite will also include this new engagement data in their Data Books.

The “Top 2” consists of the positive categories: “Strongly Agree” **and** “Agree” grouped together. Questions given in each of the surveys can be found in the Appendix of this report.

Student Engagement Results

Two-Dimensional Design

The survey questions were aligned to six broad themes of school engagement so that these aspects could be measured. The questions were worded and arranged from three perspectives, or “lenses”. The questions asked staff members to respond to items about district level topics, building level topics, and finally topics about their own personal engagement.
