

## **6500: ASSESSED CURRICULUM - PROGRAM EVALUATION**

The Board of Education shall direct the Superintendent to develop and implement a comprehensive program evaluation system. The goal of program evaluation shall be to evaluate the effectiveness and efficiency of school programs. In some cases, detailed, process or audit information (description) on programs or curriculum is required and in other instances, critical data on effectiveness (inferences about causal relationships) is needed. Programs shall be defined as either systematic and identifiable delivery systems or new curricula. Program assessment data shall be used to modify, improve or terminate ineffective programs and when making budget and other programmatic decisions.
