BACKGROUND: In accordance with Nebraska law and district policy, advance publicized notice is made before regular and special Board of Education meetings by a method designated by the Board and recorded in the minutes.

Since January 12, 2004, the Daily Record has been designated as the official newspaper. The Daily Record also is the official newspaper for the City of Omaha and County of Douglas. In the event that a special meeting is called after the deadline has passed for the Daily Record, the meeting is advertised in the World-Herald or Midlands Business Journal.

In addition to publication in the official newspaper, the school board meeting schedule is listed in the district calendar, Board Briefs newsletter, and district web site. Agendas are placed on the web site and posted on the bulletin board in the lobby of the Don Stroh Administration Center on Fridays before the meetings.

OPTIONS AND ALTERNATIVES: The Daily Record charges 59 cents per line for first run, 53 cents per line for any additional runs; circulation is 3,000. AGENDA ITEM:	Designation of Official Depositories
MEETING DATE:	January 5, 2015
DEPARTMENT:	General Administration
TITLE & BRIEF DESCRIPTION:	Designation of Official Depositories – Taking official action to designate which institutions will be used for depositing school district funds during the coming year.
ACTION DESIRED:	Approval <u> x </u> Discussion <u> </u> Information Only <u> </u> .
BACKGROUND:	<p>School districts are required by Nebraska statutes to officially designate the financial institutions they will be using for the purpose of depositing funds. This action is taken at the organizational meeting in January of each year.</p> <p>Currently, the First National Bank of Omaha is providing all of our banking services except for some activity fund related services which are provided by Wells Fargo Bank, US Bank, Core Bank, First Westroads Bank, and Great Western Bank.</p> <p>School district funds are also invested in the Nebraska Liquid Asset Fund. This is a statewide investment pool that provides secured short-term investment opportunities for Nebraska school districts and ESU's.</p>
OPTIONS AND ALTERNATIVES:	We could change depository institutions to other qualified institutions.
RECOMMENDATION:	It is recommended that the district designate the First National Bank of Omaha and the Nebraska Liquid Asset Fund as the primary depositories for school district funds with the further designation of Wells Fargo Bank, US Bank, First Westroads Bank, Great Western Bank, and Core Bank for school activity fund deposits.

TerraNova Results 2014-2015

Background

In the spring of 2010, Millard Public Schools researched possible norm-referenced test replacements to the *TerraNova, Multiple Assessments First Edition* due to outdated norms. Building administrators, teachers, and district-level leaders were part of the research process. Teachers and district level leaders completed a match to Millard curriculum standards alignment for all tests considered. With input from stakeholders and the Millard Assessment Committee, the more current *TerraNova, Complete Battery Third Edition* norm-referenced test was purchased. This test features 2007 norms as well as a solid match to Millard curriculum standards.

In fall 2010, Millard students in grades 3, 6, and 9 participated in the *TerraNova, Complete Battery Third Edition* norm-referenced test. All choices are selected response items. With the updated *TerraNova, Third Edition*, MPS also adopted the updated *InView* as the related aptitude test in place of the previous *Test of Cognitive Skills, Second Edition* (TCS/2).

Reading

The Reading item content is aligned with the standards of the International Reading Association (IRA), NAEP, and the National Council of Teachers of English (NCTE). *TerraNova, Complete Battery Third Edition* uses authentic literature from a diverse group of authors. Content includes comprehension, text analysis, and evaluating/extending meaning of the passages.

Language

Language item content assesses students' skills in the key components of language proficiency – understanding of language, students' familiarity with standard written English conventions and rules, and knowledge of syntactic constructions and paragraph development.

Mathematics

Items are aligned to the National Council of Teachers of Mathematics (NCTM) standards.

Content includes number relations, computation and numerical estimation, measurement, spatial sense, data analysis, and algebra.

Science

Science items are based on national science standards and frameworks. The items assess students' understanding relative to core science content areas: Life Science, Earth Science, Physical Science, and Nature of Science/Scientific Inquiry.

Social Studies

Test items reflect the guidelines of the National Council for the Social Studies (NCSS) and emphasize the interrelationships of history, geography, governments, and economics in their framework, question formats, and graphics. Equity is ensured through representations of varied civilizations, cultures, geographic areas, and perspectives.

InView

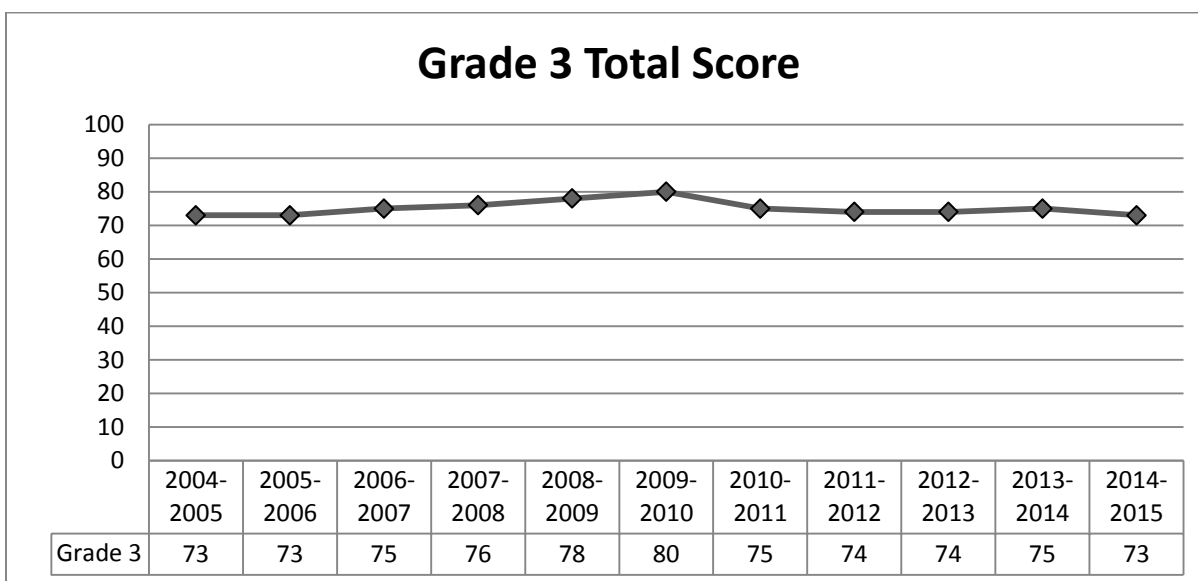

The InView is a group-administered aptitude test designed to be predictive of school success. It includes measures of verbal reasoning, sequences, analogies, and quantitative reasoning.

Results

The following graphs show TerraNova total scores for grade 3 since 2004-2005. The TerraNova total score is based on the reading, language, and math subtests (i.e., science and social studies are not represented in the total score). These data reflect test results of different groups of students each year (non-cohort data). Data results trend remains consistent over the years.

From 2000-2001 to 2009-2010 Millard Public Schools administered *Terra Nova Multiple Assessments, First Edition* (1996 norms). Starting in 2010-2011 to current, Millard Public Schools administered *Terra Nova Complete Battery, Third Edition* (2007 norms).

Trend Across Years (Non-Cohort Data)

Performance in 3rd grade *TerraNova* subtests and total composite (achievement) remains consistent as does 3rd grade performance in the *InView* (aptitude). The *InView* is designed to be predictive of school success and yields anticipated achievement scores that can be compared to *TerraNova* scores as one indicator to determine if students are achieving as well as would be predicted by their aptitude score. On the average, students scored slightly lower than would be predicted by their aptitude score. The 3rd grade predicted NP of mean NCE was 76 and the actual is 73.

This graph shows the district-wide *TerraNova* total score for students receiving special education services (SpEd) versus students not receiving special education services (non-SpEd).

There continues to be an overall gap in achievement between students receiving special education services and their non-disabled peers. The gap in achievement between these groups is quite variable among schools.

Summary

The analysis of non-cohort groups showed that Millard students continued to score well above the national average on the *TerraNova*. Maintaining a high level of academic achievement over time indicates that Millard's schools are delivering effective instruction.
