STUDENT FEES PUBLIC HEARING SCRIPT
By Duncan A. Young, Young & White Law Offices
Monday, May 3, 2021
6:00 pm
Don Stroh Administration Center

(NOTE: The Act requires that the public hearing be held at a special or regularly scheduled meeting of the Board of Education and, therefore, you should open the special meeting and state that the purpose of the special meeting is to hold the public hearing on the Student Fees Policy.)

I. Good evening and welcome to the Millard Public Schools' Board of Education Meeting. This part of the meeting is to hold the public hearing on the Student Fees Policy.

Section 79-2,134 of the Public Elementary and Secondary Student Fee Authorization Act requires that annually each school board hold a public hearing at a regular or special meeting for the purpose of addressing the proposed Student Fees Policy.

Prior to holding the public hearing, the act requires the Board of Education to review the amount of money collected from the students and the use of the waivers pursuant to the Student Fees Policy for the prior year. That was provided to the Board.

I would like to introduce the Board members who are present and will participate in this public hearing. They are:

As I understand, the Superintendent and the District's administration are recommending this Policy and the accompanying Rule for adoption and are available to answer questions from the Board members. I also understand that the administration is not going to make a presentation as such.

(If no one is wishing to speak) Seeing no request to speak I will now entertain a motion to close the Public Hearing. Motion, Second, Vote. The Public Hearing is closed

(If public is present and wishing to speak continue)

In order to allow everyone a chance to address the Board on the Student Fees Policy and accompanying Rule, I would like to ask each of you to limit your comments to three (3) minutes. If there is a group of people who collectively would like to address the Board on this issue it might be helpful if you would select one, two or three individuals to speak on behalf of the entire group. Of course, we will allow each of you who wish to address the Board on this subject to do so at this time. The official Board action on the policy and accompanying rule will be acted on during the regular meeting which is scheduled to follow immediately after this public hearing.

I have received (numerous) (_____) requests to address the Board and I will attempt to call you in the order in which the requests were turned in prior to the opening of this public hearing. After everyone has had an opportunity to address the Board on this issue, I will close the public hearing and adjourn the special meeting. The first speaker that has requested an opportunity to address the Board is _____

(continue calling the individuals until you have gone through all of them). **There is no other person wishing to address the Board.**

I will now entertain a motion to close the Public Hearing on the Student Fees Policy and Rule. Motion, Second, Vote.

(Thank you very much for your participation in this public hearing. You have offered valuable information and insight to all of the Board members as well as to the Superintendent and his administrative staff.)

Public hearing is closed.

Reports:

High School Small Class Size Report

Director of Secondary Education Dr. Tony Weers provided the board with the high school small class size report. Dr. Weers shared that this report is used to create discussion with building teams, specifically regarding courses with less than 14 students enrolled. This year there are no courses being recommended for cancellation. Several courses will be monitored or co-seated with other courses.

Core Knowledge at Disney Elementary Program Evaluation

Executive Director of Assessment, Research, and Evaluation Dr. Darin Kelberlau thanked Dr. Kara Hutton and principal Cindy Scharff for their assistance on this report. He said this study evaluated three main topics: enrollment, culture, and student achievement. Dr. Kelberlau said student enrollment has increased during the implementation of the Core Knowledge program and with this program nearing the completion of implementation, the school enrollment is approaching capacity. The culture and engagement at Disney is similar to or better than other elementary schools and cultural diversity has increased at the school. He said Core Knowledge students achieve and grow as well as or better than their peers within Millard Public Schools in both reading and mathematics (as measured by MAP Growth). Core Knowledge parents are highly involved with a wide variety of school activities and their children's education.

Legislative Update

Executive Director of Activities, Athletics & External Affairs Nolan Beyer provided the board with a legislative update. Mr. Beyer said tomorrow will be the 63rd day of the 90 day session and they will be coming off a four day weekend.

Mr. Beyer said the budget bills easily moved on from select file and will be heard for final reading tomorrow morning. The budget has moved through with very minor changes. No trouble passing the budget is anticipated.

Mr. Beyer said LB2 by Senator Briese reduces valuation on agriculture land to 50% of actual value on taxes paid to schools. Millard and members of GNSA had this bill as a monitor status. Mr. Beyer said a recent amendment added a requirement of a 3% increase annually to the state's property tax credit fund regardless of the state's financial situation. Due to this change we have changed our stance to oppose this bill.

Mr. Beyer said LB408 by Senator Briese will be up on the floor Thursday morning. He said AM973 has been filed as a white copy amendment which means it replaces the bill. This is a large amendment. Mr. Beyer said they continue to work with contract lobbyists on different strategies. Mr. Beyer said the education community with the help of contract lobbyists have developed 16 amendments to AM973. He said they have commitment from senators on almost all of the amendments. He said the vote count currently is at a strong twenty.

Mr. Beyer provided brief updates on the following bills:

- LB147 - Change provisions relating to retirement systems for Class V school districts.
- LB364 - Adopt the Opportunity Scholarships Act and provide tax credits.
- LB454 - Adopt the School Property Tax Stabilization Act and change the valuation of agricultural land.
- LB644 - Transparency in Taxation Bill.

District Update

Dr. Sutfin provided the board with an update on how the district is responding to COVID-19. Dr. Sutfin said today we have 44 active cases of COVID-19. Dr. Sutfin said we are having discussions with Douglas County Health regarding quarantines and the value of them.

Dr. Sutfin said it appears there will be eight vaccine clinics for students across the metro area. Vaccines would be available for students ages 16 and above. Millard will host one of the clinics at Millard North. He said parents would accompany the student and sign a consent for the walk-in only clinic. Dr. Sutfin said we continue to work with Douglas County and will communicate to families as soon as possible.

Mrs. Poole reminded the Board of future agenda items and said this is the proper time for public questions and comments. There were two requests to speak on non agenda items. *Scott Lodes of 5417 S. 147th St.* and *Kate Muldoon of 5417 S. 147th St.* spoke regarding loitering in the Millard South East parking lot.

5410

In order to ensure the highest possible standards of learning as well as the safety, health, and well-being of students, the District endorses a substance abuse policy which will aid students to abstain from the use of illegal drugs, intervene early when student use is detected, take corrective disciplinary action when necessary, and provide aftercare support for students.

As used in this Policy "drugs" shall include tobacco, nicotine, alcohol, controlled substances as defined by state law, other mood or behavior-affecting substances which are not taken for medical purposes, and "look-alike" drugs.

I. PREVENTION

The District will adopt an age appropriate developmentally based drug, tobacco, nicotine and alcohol education and prevention program, which includes in its scope the legal, social, and health consequences of drug, tobacco and alcohol use and provides information and techniques for the resistance of peer pressure for use of illicit drugs, tobacco, nicotine or alcohol. The program shall be for all students in all grades of the schools operated and served by the District from the early childhood level through grade twelve (12).

The District will provide students with information and activities focused on preventing students from using drugs. Prevention activities will be centered around the instructional program, guidance and counseling, school climate, and family and community involvement.

II. INTERVENTION

The District shall make available to students, information about any drug, tobacco, nicotine or alcohol counseling, or rehabilitation, or re-entry programs available to students.

The District shall establish and maintain an assistance program, through a team approach, to aid students who are chemically involved to successfully address their harmful involvement with chemicals and to continue in a school program.

III. DISCIPLINE

The District shall notify all students that the use of illicit drugs and the unlawful possession and use of tobacco, e-cigarette type products, and alcohol are wrong and harmful.

The rules established by the District shall clearly prohibit the unlawful possession and use or distribution of illicit drugs, tobacco, e-cigarette type products, and alcohol by students on school premises or as a part of any District activities and it shall be applicable to students in all of the schools in the District.

The District shall adopt disciplinary sanctions consistent with local, state and federal laws up to and including expulsion and referral for prosecution of students who violate the District's Standards for Student Conduct and a description of sanctions as described by the rules of the District including sanctions which require the completion of an appropriate rehabilitation program.

Students have the right to attend school in an environment free of drugs. Possession or use of tobacco, or e-cigarette type products, or possession, distribution or use of mood or behavior-affecting substances, alcohol, "look-a-likes" or drug paraphernalia, are prohibited on school grounds and at school-sponsored or school-related activities.

The consequences for possession, distribution, or use of drugs, controlled substances, mood altering drugs, unauthorized medication, alcohol, or possession of drug-related paraphernalia will result in disciplinary action.

It is the policy of the District to take positive action through education, counseling, parental involvement, medical referral, and police referral where appropriate in the handling of incidents in the schools involving mood or behavior-affecting substances or alcohol.

School property and student property may be searched by school authorities in the interest of the maintenance of the health and safety of students and staff, the educational process, and to further school purposes.

Students may be subjected to alcohol and other drug screening and testing technology pursuant to District Policy 5490 and Rule 5490.1.

5410.1

I. PREVENTION.

- A. The purpose of the District's alcohol, tobacco and other drugs (ATOD) prevention program is to promote wellness and healthy life styles. To accomplish this, the program will be designed and implemented to develop a respect for a healthy mind and body. Students will learn how the body functions, how personal habits contribute to good health, and how drugs affect the body and the nervous system.
- B. The prevention program will focus on classroom instruction, and guidance and counseling. Involvement of students, parents and other community members is essential for the success of District ATOD prevention activities.
- C. The ATOD prevention program shall be an age appropriate and developmentally based program for all students in all grade levels from early childhood through grade twelve (12).

1. Instruction Program.

- a. All schools will have instructional programs which promote student wellness and which assist students in making responsible decisions about the use of ATOD. Current and accurate information about drugs and their effects upon the body and nervous system is only one (1) component of an instructional prevention program. Other components include instruction and skill development related to self-awareness, decision making, and interpersonal relationships.
- b. In the elementary schools, major responsibility for providing instruction about the prevention of ATOD use/abuse will be provided by health education programs, following specific objectives to be covered. The health curriculum will be consistently reviewed, evaluated, and updated. Other areas of the elementary curriculum will reinforce the prevention concepts taught in the health program.
- c. In the secondary schools, components of the instructional prevention program will be integrated into a variety of required and elective courses throughout the curriculum.
- d. All staff will be provided training in prevention strategies and in any new curriculum. Instructional materials will be available for each school to implement the program.
- e. Each school will formulate a prevention plan based on that school's needs that complements and supplements the District instructional program. These plans will be an integral part of the District's comprehensive prevention plan and will be reviewed and updated annually by staff and parents and by students, as appropriate.

2. Guidance and Counseling.

- a. Guidance and counseling personnel will assist teachers and administrators with the implementation of classroom curriculum and school ATOD prevention plans.
- b. Counselors will work with students, individually and in appropriate groups, to supplement ATOD prevention instruction and skill development. Counselors

will also work with staff and parents to maximize the prevention efforts of the school.

- c. All students shall receive a statement that the use of illicit drugs and the unlawful possession and use of tobacco and alcohol is wrong and harmful.
3. School Environment. Prevention efforts will emphasize maintaining a safe, positive and healthy school environment that encourages the student's positive self-concept; the student's enthusiasm for learning; outlets for student self-development and creativity which acknowledge individual skills, needs, and interests; responsible student decision-making and problem-solving; and recognition of the special needs of high-risk students or families experiencing undue stress.
4. Family and Community. The successful prevention of drug involvement must include a plan to ensure that parents and the community are aware and knowledgeable of programs and services available to them and their children. Parents and community members will be actively involved in the community/school partnership.

II. INTERVENTION.

- A. All schools will establish and maintain an ATOD intervention program. The goal of the ATOD program shall be to eliminate ATOD use by students.
- B. Ongoing in-service training will be provided for all staff. Training will include dimensions of the family illness and dynamics of the addiction process; enabling behaviors; intervention techniques; children in chemically dependent families; student experimentation, abuse and dependency; parental involvement and community resources; prevention issues and strategies; treatment and aftercare support; and implementation of the program into the classroom/building.
 1. ATOD Intervention Program - Personnel Responsibilities.
 - a. Administration has the primary responsibility for implementation of the ATOD intervention program in each school.

AGENDA SUMMARY SHEET

Agenda Item:	Approval of Construction Manager at Risk’s Guaranteed Maximum Price for Norris Elementary School Renovation
Meeting Date:	May 3, 2021
Background/ Description:	<p>The progressive steps for construction projects are generally as follows:</p> <ol style="list-style-type: none"> 1. Schematic Design (SD) * <i>Board Meeting Presentation</i> <ul style="list-style-type: none"> - “50 thousand feet view” – initial design and cost estimates 2. Design Development (DD) <ul style="list-style-type: none"> - “10 thousand feet view” – refined design and cost estimates 3. Approval of Construction Manager at Risk’s Guaranteed Maximum Price * <i>Board Meeting Presentation</i> 4. Contract Administration (CA) <ul style="list-style-type: none"> - Supervision and documentation of the construction project. <p>Norris Elementary School is one of the renovation projects budgeted in the 2020 bond.</p> <p>The budget construction cost during the bond preparation process was \$5,208,077. The Guaranteed Maximum Price proposed by the Construction Manager at Risk (Weitz) is \$7,230,086. This is \$2,022,009 over budget. This overage is more than offset by savings on previously awarded 2020 bond projects and by spending out the remainder of the 2013 bond funds, thereby freeing up 2020 bond funds. Most of the amount over budget involves expansions to the west and north sides of the building as described in the architect’s report to facilitate education support.</p> <p>Under our more traditional approach, the architect would be coming to the Board to present a Bid Summary document showing the various lump sum bids of several contractors. Under this CMR approach for Norris Elementary School, we already have our contractor identified (The Weitz Company). The attached documents break out the costs that Weitz has developed. These costs have been reviewed by the architect (Holland Basham). The proposed guaranteed maximum price from Weitz is a “not-to-exceed number” for the agreed scope. If there are future savings identified or if internal contingency is not used, any unused funds would be credited back to the District at the end of the project.</p> <p>Copies of the architect’s letter and supporting documents are attached. A representative from Holland Basham Architects and a representative from the Weitz Company will be present to answer any questions.</p>
Action Desired:	It is recommended that the Construction Manager at Risk’s Guaranteed Maximum Price for the Norris Elementary School Renovation of \$7,230,086 be approved and that the Chief Financial Officer be authorized to execute any and all documents related to such project.

RE: MPS Norris Elementary School Renovation and Additions

Dear Mr. Meisgeier;

Evaluation of the approved Norris Elementary Bond Scope of Work and existing building has been in progress with the MPS Staff and Holland Basham Architects since our approval as your Construction Manager on December 7, 2020. During this collaborative design session, additional building challenges were identified. These were estimated as possible scope change items for enhancements to the school and provided for review. The increases in scope include;

- Requirement for Small Mechanical Additions at the North & West Wing for new Equipment
- Expanded Additions to include needed Learning Breakout Space, Offices and Secured Egress Vestibules
- Upgraded Feature Entrance
- Demolition and New Restrooms at the Gym to Accommodate ADA Requirements
- Building Fire Sprinkler due to overage in Code Allowable Size
- Replacement of Storefront, shown to stay, to Increase Efficiency of the Building
- New Classroom Casework, in lieu of soffit, to cover mechanical lines
- Painting of complete Ceiling
- Carpet in lieu of VCT in Corridors
- Additional Sidewalks for Code Compliance
- New Larger Secondary Electrical Service to the Building for Heat Pump Loads
- New Storm Sewer Exterior Piping to Prevent Surface Freezing on Sidewalks

The determination was made to proceed with the bidding of these items after the Schematic Budget. It was estimated that the original budget of \$5,208,077 would need to increase to \$7,037,511 to incorporate the change in Scope.

Upon receipt of bids, two factors were identified driving additional, unanticipated cost from the estimate. Large increase in materials escalation pricing due to market shortages in materials from COVID closures and disasters in Texas. This includes steel materials pricing contributing to additional cost for structural steel, steel fire sprinkler piping and metal stud materials. Additionally, the labor required for the masonry façade was under-estimated. Due to the gable configuration, the inefficiency of installation was higher than anticipated.

Options for savings were explored and non-scope changing deducts were accepted for a total proposed GMP of \$7,230,086. Understanding these scope and cost increases, The Weitz Company recommends approval to proceed with the project as scheduled to start this summer. This recommendation is based on concern that additional material escalations and annual labor rate increases will increase the overall cost. The subsequent school, Cody, would experience a delay in start, contributing to an increased cost for Millard Public School. Additionally, the current schedule allows the students and staff to recognize the early benefit from the upgraded learning environment.

Please respond back with any questions or concerns. We will provide supplementary information as requested. Upon your approval, the project will proceed forward immediately.

Sincerely,

Subject: Millard Public Schools – Norris Elementary Renovation
 HBA Project Number: 20107

Dear Mr. Meisgeier,

As you are aware, on December 7, 2020 the School Board approved the Weitz Company to act as Construction Manager at Risk (CMR) for the Norris Elementary School Renovation project. Since that time HBA and MPS Staff have been working together with Weitz to develop and document the specific project scope, detailed requirements, and projected construction timelines to bring this project forward. During the design process, and on-going collaboration with Weitz, and the District, several design challenges were discovered. These possible scope change items include:

- Requirement for Small Mechanical Additions at the North & West Wing for new Equipment
- Expanded Additions to include needed Learning Breakout Space, Offices and Secured Egress Vestibules
- Upgraded Feature Entrance
- Demolition and New Restrooms at the Gym to Accommodate ADA Requirements
- Building Fire Sprinkler due to overage in Code Allowable Size
- Replacement of Storefront, shown to stay, to Increase Efficiency of the Building
- New Classroom Casework, in lieu of soffit, to cover mechanical lines
- Painting of complete Ceiling
- Carpet in lieu of VCT in Corridors
- Additional Sidewalks for Code Compliance
- New Larger Secondary Electrical Service to the Building for Heat Pump Loads
- New Storm Sewer Exterior Piping to Prevent Surface Freezing on Sidewalks

After a comprehensive analysis of the proposed work, HBA, Weitz and MPS Staff made the decision to proceed with the bidding of these additional scope items after the Schematic Budget. After a comprehensive analysis of the proposed work, it was determined that the original budget of \$5,208,077 would need to increase to \$7,037,511 to incorporate the changes in scope.

The Guaranteed Maximum Price (GMP) process for Norris Elementary School has been very collaborative and HBA has been directly involved in reviewing the details of the Weitz proposal. Numerous cost savings options were explored by HBA, Weitz and MPS Staff to reduce over-all costs without changing the scope of the project. Many of these options were accepted to bring us to the total GMP of \$7,230,086.

After careful review of the GMP, HBA recommends approval to proceed with the project as scheduled to start this summer.

Upon your approval, we can proceed with moving the project forward. Please let me know if you should have any questions or concerns.

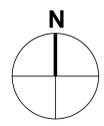

Sincerely,

Megan K. Jarosz, HBA Associate Partner
